# GENESIS No-Till Drill

# GENESIS 3

In the beginning there was... Genesis. A true no-till drill that will plant a variety of food plot seeds in the ground even in the toughest soil conditions. The Genesis features tempered cutting discs spaced at 7.5 inches apart, that slice into the soil then plants the seeds in the slits that are created by the discs. The slits are then closed by solid rubber packing wheels that trail behind the discs. With the Genesis you will have outstanding seed to soil contact even when cutting through standing vegetation, unlike our competitors who use harrow discs to turn the soil then “drop-n-stomp”, hoping to see seed germination. The Genesis leaves no exposed seeds to wash away or eaten by wildlife. Why waste time and money on seed, time and time again, when you can plant it right the first time. The seeding mechanism is simple to calibrate and extremely accurate all while working with a variety of seed sizes and even seed blends/mixes without the need for a second seed box. Genesis...plant it right from the beginning!

Working Width	37.5"	60"	90"	113"
Working Depth	0.5" - 2.0"	0.5" - 2.5"		
Seeding Speed	Up to 7.5 mph			
Weight	1,188 lbs	1,819 lbs (HD Version 2,593lbs)	2,670 lbs (HD Version 3,808 lbs)	4,718 lbs
Seeding Row Distance	7.5"			
Cutting Elements	5	8	13	16
Seed-Tray Capacity	4.9 Bushels	8 Bushels	11.5 Bushels	12.8 Bushels
Hitch Type	Clevis Hitch Three-point Cat 1-2	Three-point CAT 1 - 2		
Maximum Capacity	2.8 acres per hour	4.5 acres per hour	7 acres per hour	9 acres per hour
Dimensions L x W x H	46" x 53" x 51" <sup>1</sup> 100" x 79" x 56" <sup>2</sup>	46" x 74" x 49"	46" x 104" x 49"	46" x 130" x 49"
Recommended Tractor Size	Min. 800cc ATV/UTV 30HP Tractor	40HP w/lift cap. of 2,400 lbs	55 HP w/lift cap. of 3,200 lbs	120 HP w/lift cap. of 5,500 lbs

## Standard Parts

- \* Variable clutch system for simple and accurate calibration.
- \* Integrated seed spreading tray.
- \* Seed hopper with sight-glass.
- \* Acre seeding gauge.
- \* Soil following seeding wheel.
- \* Independent cutting elements following the soil.
- \* Seed slit closing wheels.
- \* Adjustment legs for storage.

## Optional Parts

- \* Hydraulic Wheel Kit, necessary for pull style vehicles such as ATV/UTVs.
- \* Pre-cutting discs in front of the seeding elements.
- \* Hydraulic Pump Kit
